

Medical Seminar Series

Auricular Medicine Seminar Series

By: LICHUN HUANG, M.D. (China)
WILLIAM S. HUANG, O.M.D

Auricular Medicine

- A comprehensive practice based on scientific medical systems
- Unique art of excellence in the accuracy and precision of diagnosing all diseases.
- Natural drug-free diagnosis and treatment procedure and reasonably priced without side effects.
- Has both diagnosis and treatment methods called Auricular Diagnosis and Auricular Treatment respectively

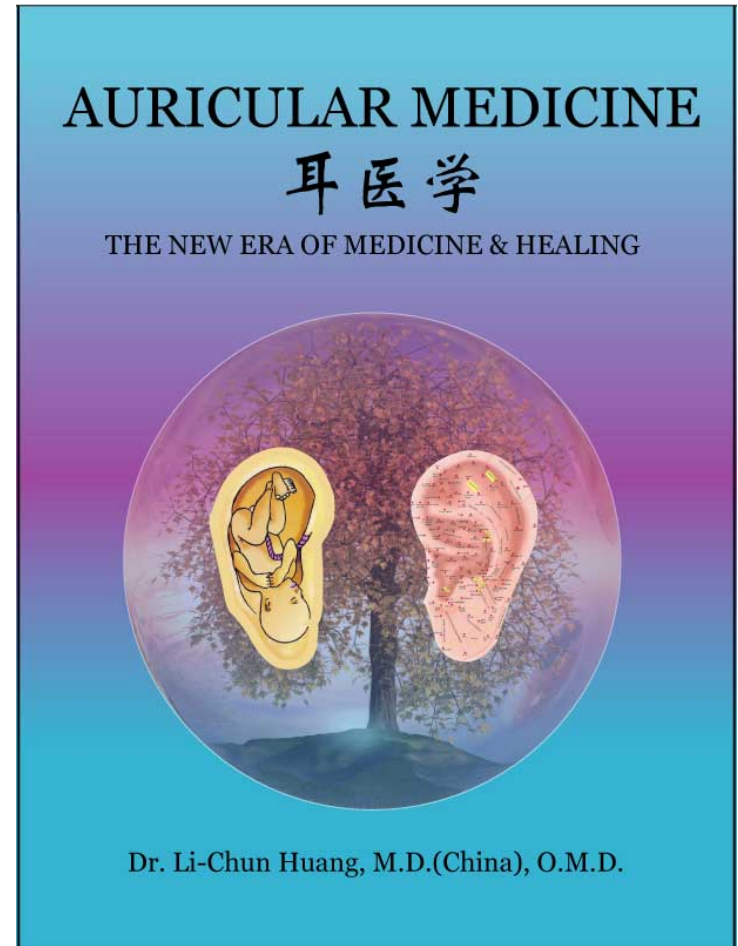

Features of Auricular Medicine

- *Comprehensive*
- *Natural*
- *Costless*
- *Painless*
- *Simple*
- *Effective*
- *Self-Treatable*
- *Quick*

Auricular Medicine, 1st Edition

- Just published
- Covers all the area of Auricular Medicine
 - History of Auricular Medicine
 - Auricular Points
 - Auricular Diagnosis
 - Auricular Treatment
- Includes all the experiences the author through her research and study

Auricular Medicine Seminar Series

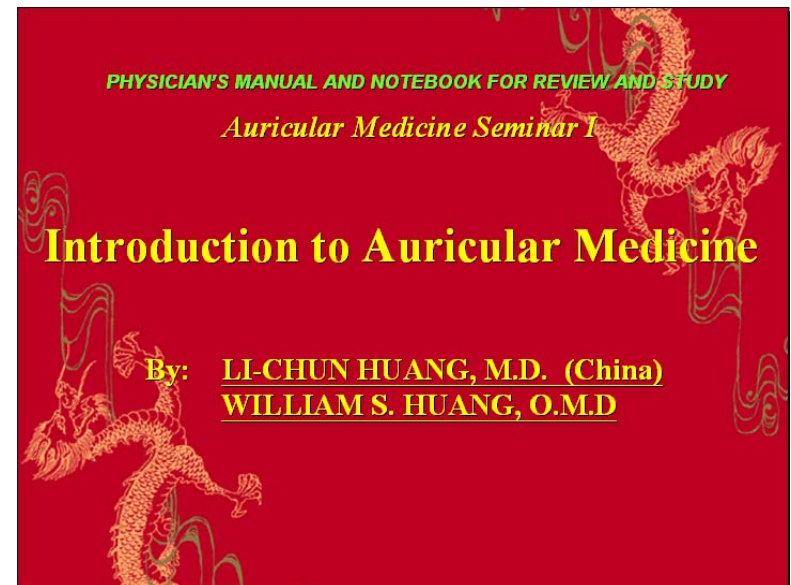

- To help students learn and to spread Auricular Medicine to the world
- Composed of 8 different seminars covering from the fundamentals to advanced features of Auricular Medicine
- Each seminar takes two to three days and covers certain areas. Each seminar is composed of three sections:
 - PowerPoint Presentation
 - Hand-on Demonstration
 - Discussion
- Please visit www.earmedicine.us for more information about our seminars

Seminar I

Introduction to Auricular Medicine

- This Seminar provides a thorough introduction to Auricular medicine
 - History of Auricular Medicine
 - Differences between Auricular Medicine and other therapies
 - Fundamentals of Auricular Diagnosis and Treatment methods
 - General applications of Auricular Medicine
 - Demonstrations of Skills

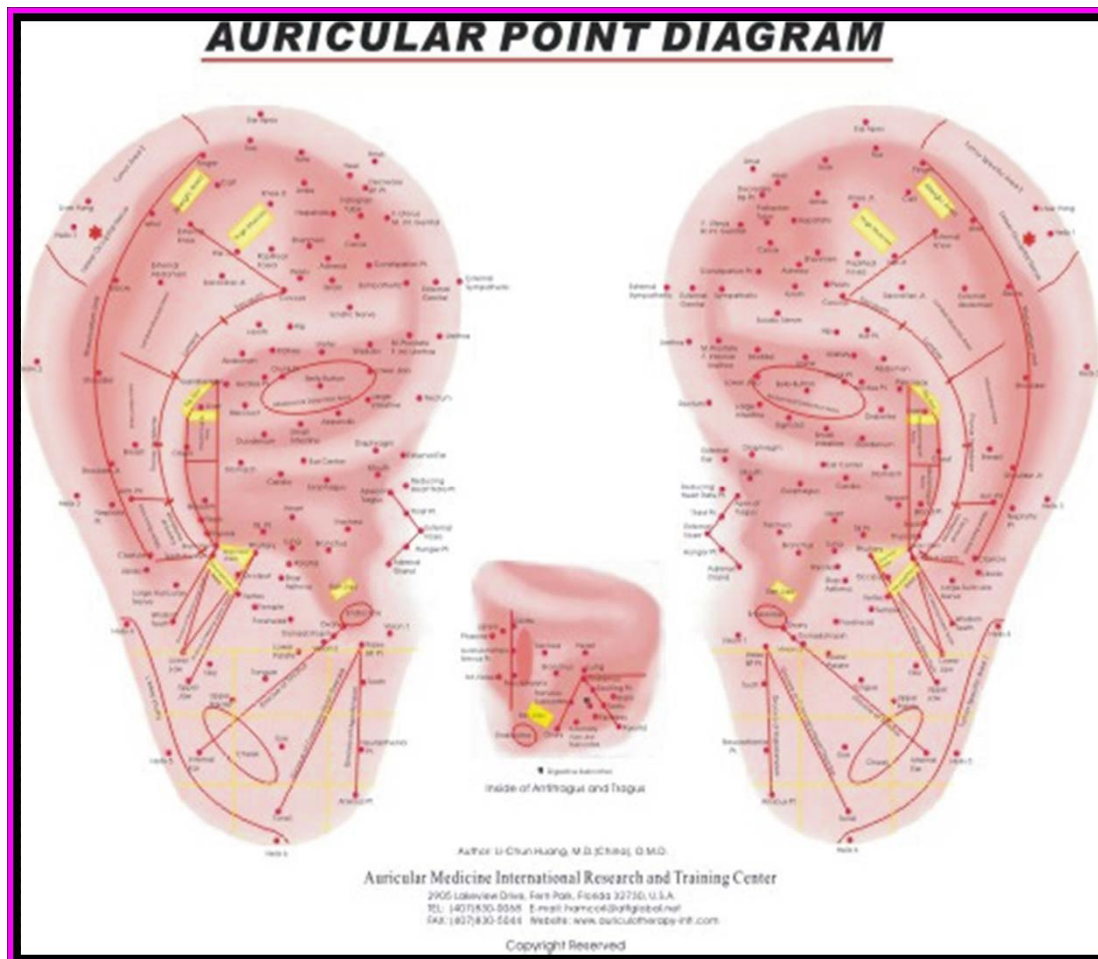

Seminar II

Auricular Points

- This seminar provides the basic knowledge of Auricular Points
 - Definition of Auricular Points
 - Distribution and location of Auricular Points
 - Classification of Auricular Points
 - Demonstrations of Skills

Auricular Point Diagram

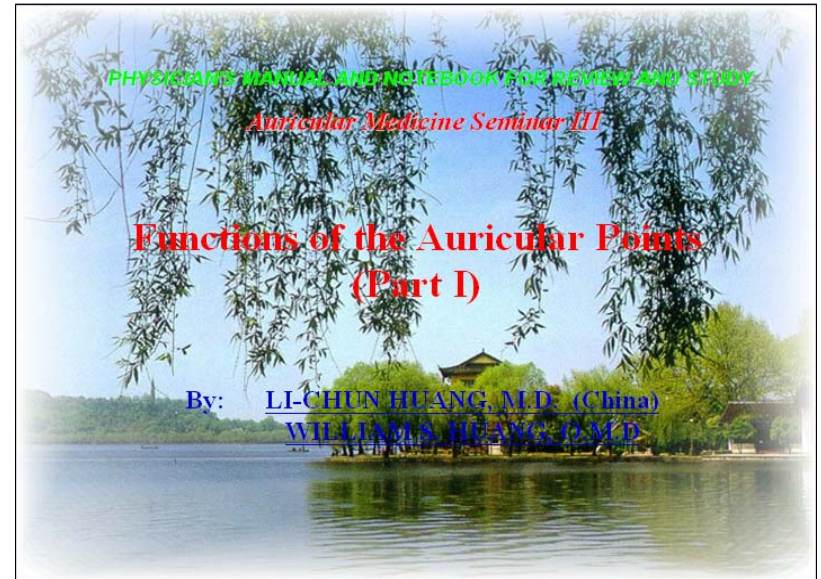

Ear Model

Seminar III

Functions of Auricular Points (Part I)

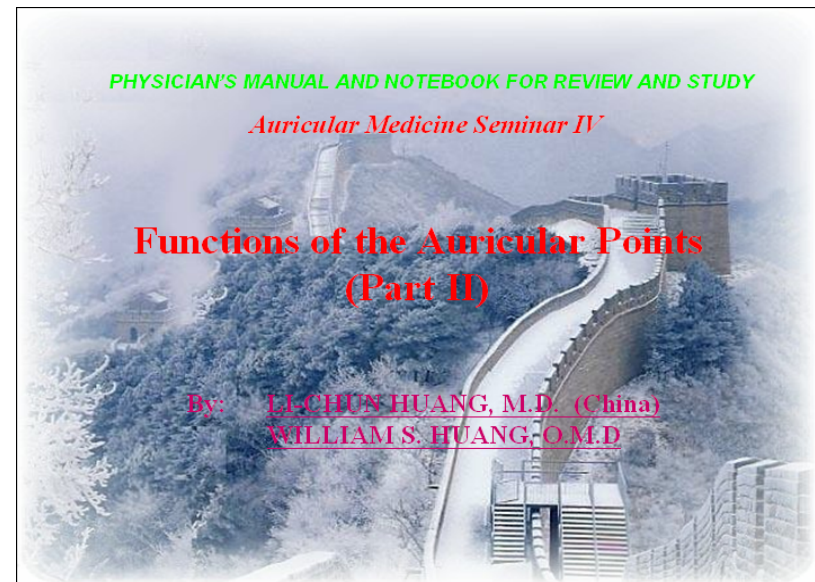

- Discusses the detailed knowledge of the most important auricular points
 - Specific Points: Points, Areas, Grooves, Axes, Channels, Triangles, Lines
 - Points of Nervous System
 - Points of Endocrine System
 - Demonstrations of Skills

Seminar IV

Functions of Auricular Points (Part II)

- Discusses the detailed knowledge of the most important auricular points
 - Corresponding Points
 - Points of Five Zang and Six Fu
 - Posterior Points
 - Other Points
 - Demonstrations of Skills

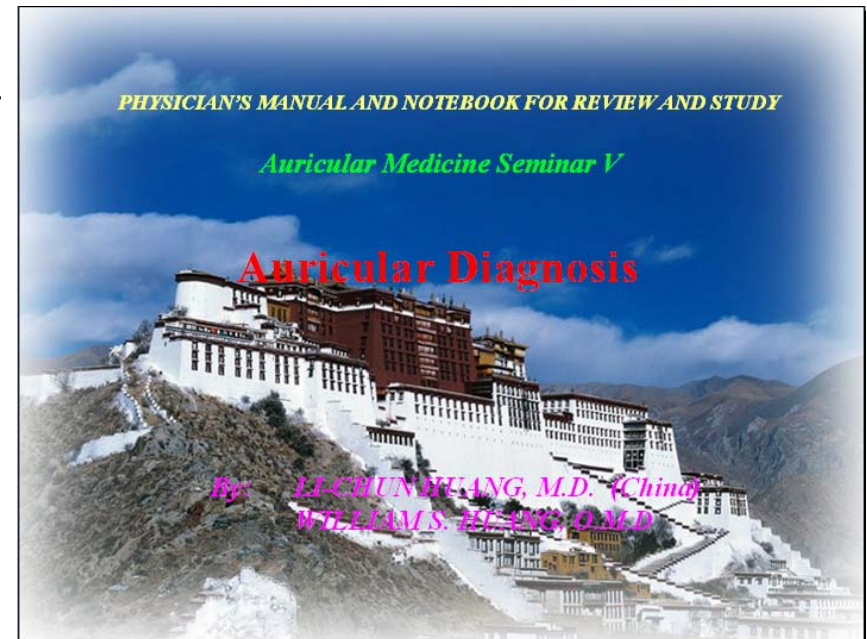

Seminar V

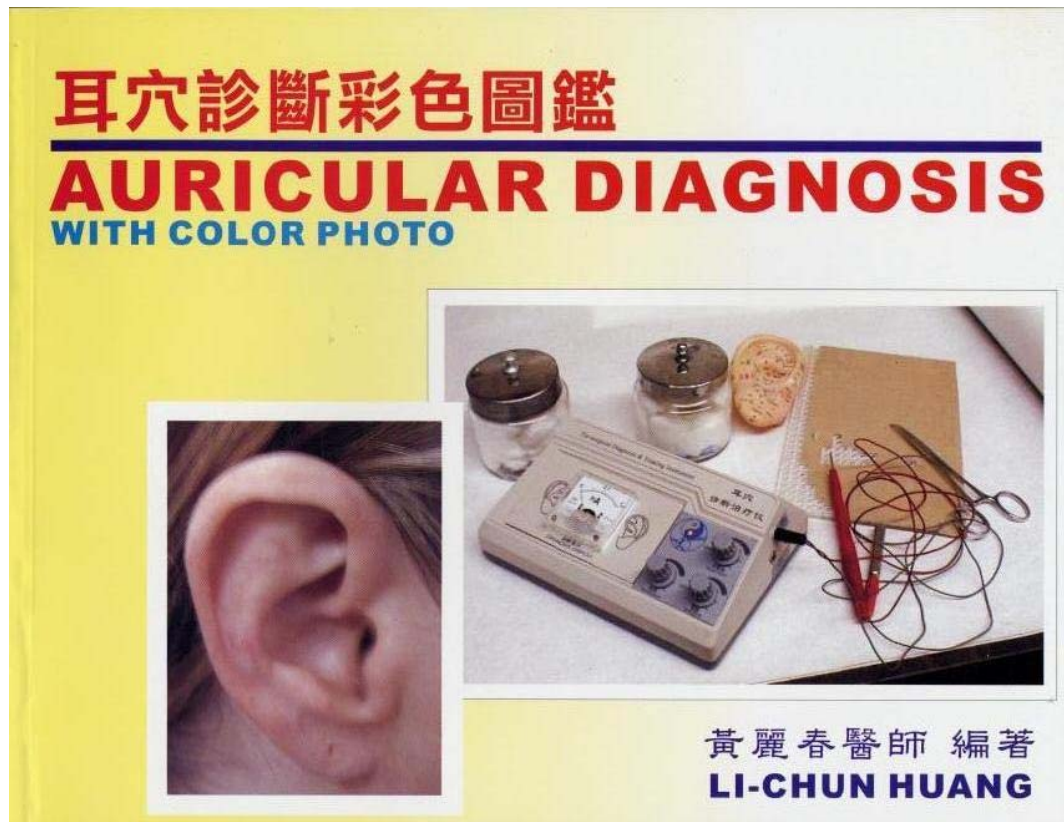

Auricular Diagnosis: *Inspection*

■ Focuses on introducing the knowledge of Auricular Diagnosis

- General concepts and its history
- Auricular Diagnosis methods
- Diseases to be diagnosed
- Auricular Visual Diagnosis
- Demonstrations of Skills

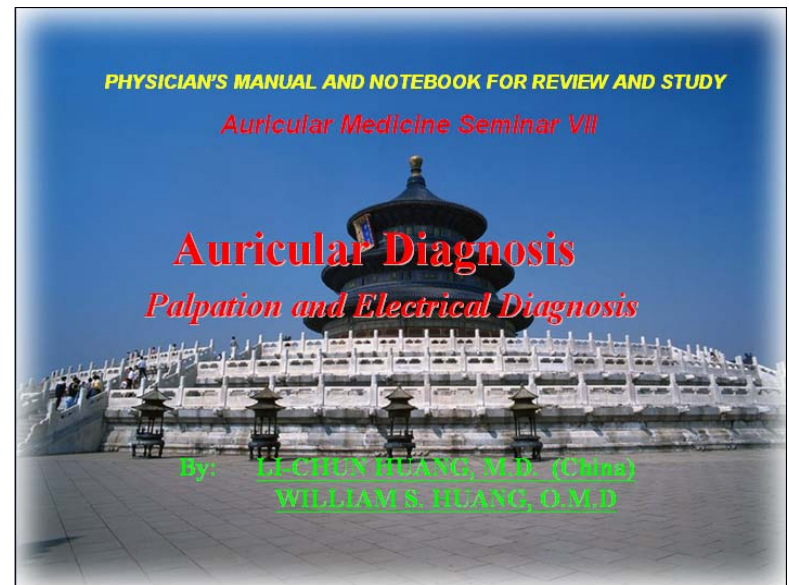

Color Pictures for Visual Diagnosis

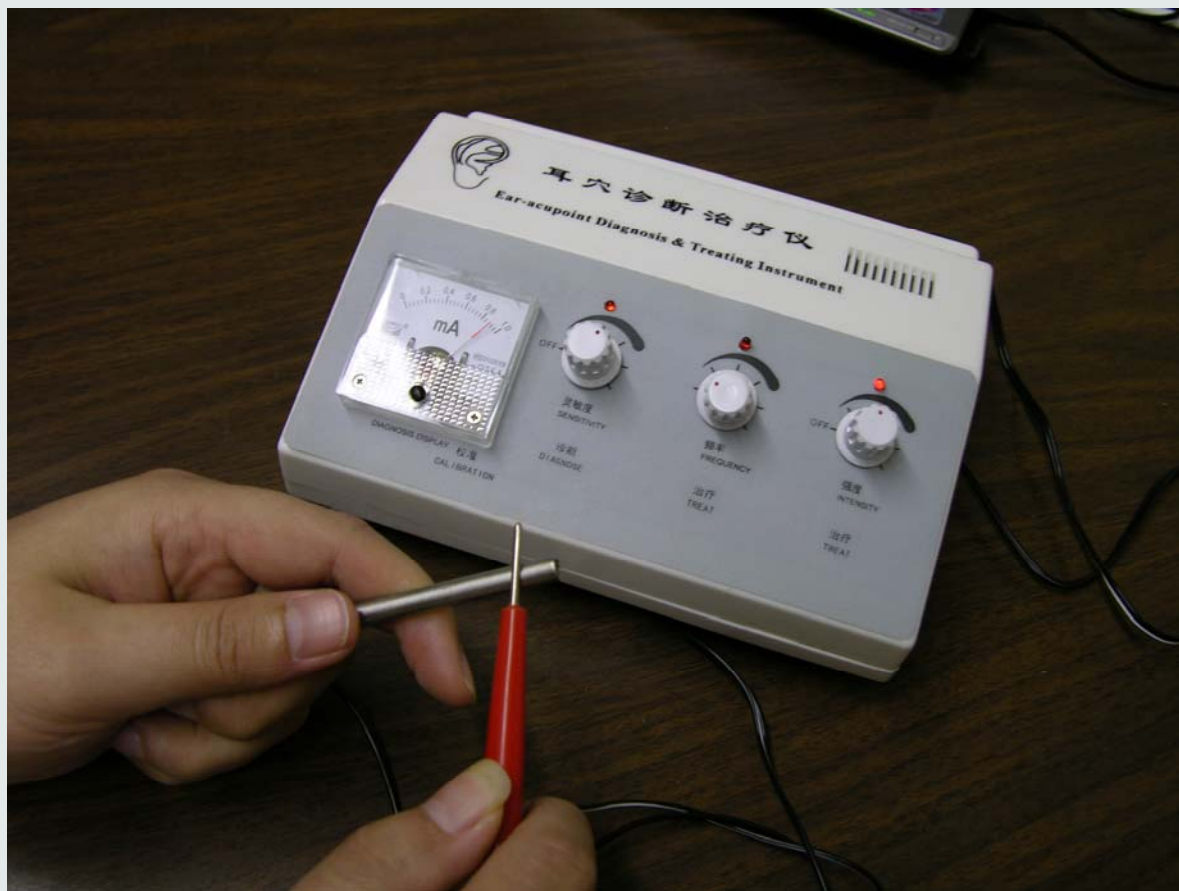

Seminar VI: Auricular Diagnosis: *Palpation and Electrical Diagnosis*

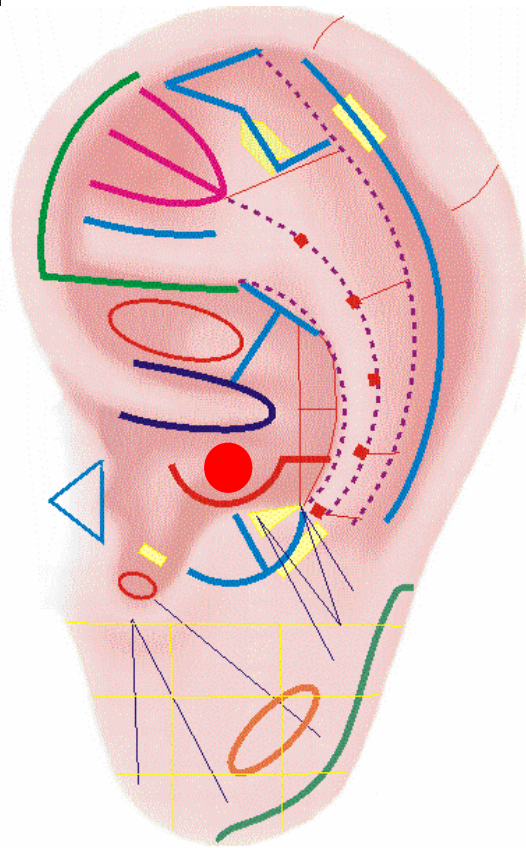

- Presents the remaining Auricular Diagnosis methods
 - Palpation
 - Auricular Electrical Diagnosis
 - Differentiation
 - Demonstrations of Skills

Seminar VII

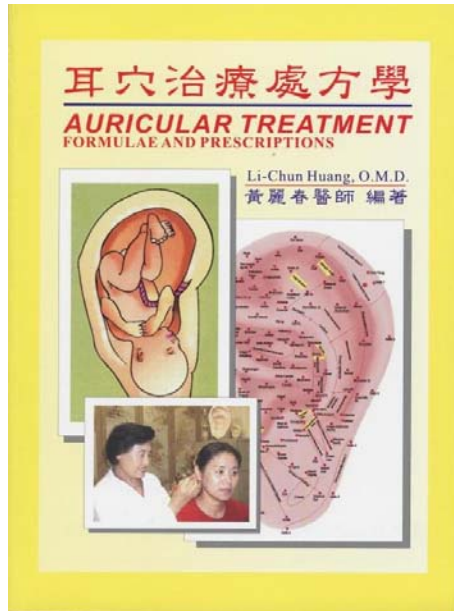

Auricular Treatment

This seminar introduces the basic concepts and methods of Auricular Treatment

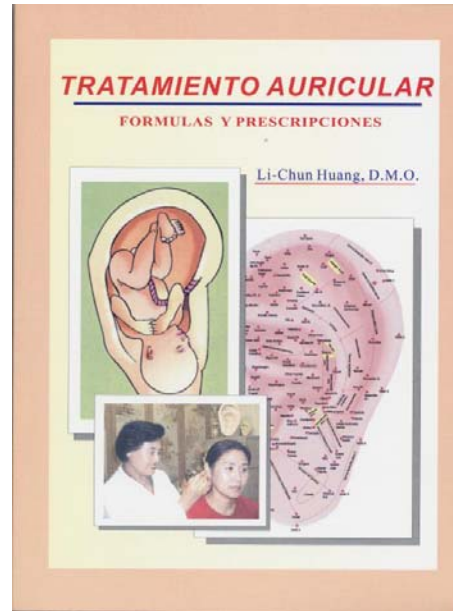

- Introduction
- Methods of Auricular Treatment
- Auricular Seed Therapy
- Auricular Bleeding Therapy
- Auricular Massage Therapy
- Principles of Point Selection
- Prescriptions of Auricular Treatment
- Demonstrations of Skills

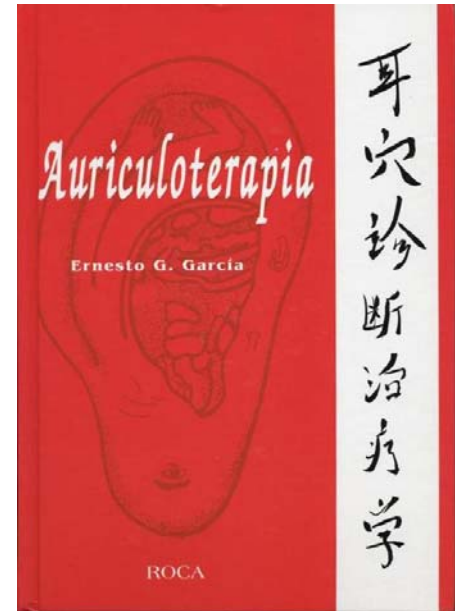

Auricular Treatment Textbooks

English-Chinese

Spanish

Portuguese

Seminar VIII

Auricular Treatment and Manipulations

This seminar focuses on introducing the manipulation and treatment results

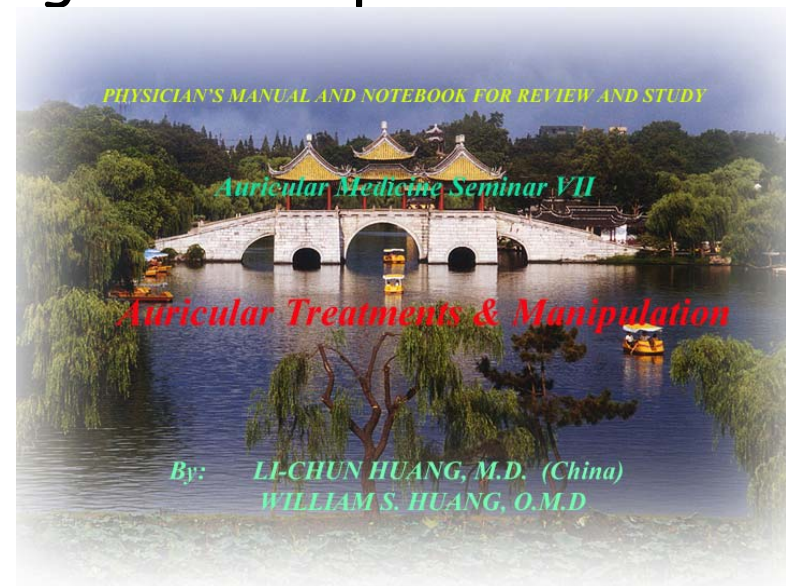

- Relationship:

- between the Treatment Effect and the Auricular Point Selection
- between the Treatment Effect and the Stimulation
- between the Treatment Effect and Manipulation Methods

Principles of the Application of the Manipulation Methods

Selection of the Manipulation Methods

Auricular Treatment of Different Diseases

Certificates

- Currently we offer three different levels of certification
 - Auricular Therapist
 - Practitioner of Auricular Medicine
 - Master of Auricular Medicine

Auricular Therapist

- Attend at least 16 credit hours of seminar courses of Auricular Medicine.
- Attend clinical observations of at least 10 patients of Auricular Practices
- Trainees should treat at least 24 patients in their own clinics.
- Requires total over 50 hours, including all study and practice

Practitioner of Auricular Medicine

- Attend at least 32 credit hours of seminar courses of Auricular Medicine.
- Attend clinical observation of at least 20 patients of Auricular Practices
- Trainees should treat at least 48 patients in their own clinics.
- Requires a total of 100 hours, including all study and practice

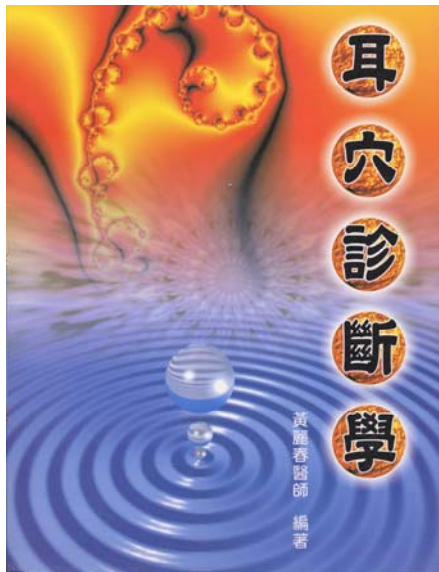

Master of Auricular Medicine

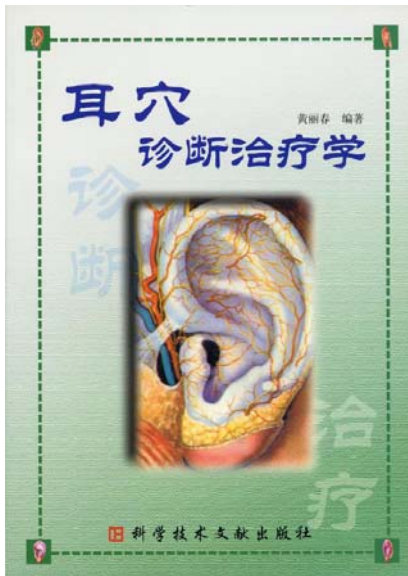

- Attend at least 64 credit hours of seminar courses of Auricular Medicine.
- Attend clinical observation instructions of at least 40 patients of Auricular Practices
- Trainees should treat at least 100 patients in their own clinics.
- Requires a total over 200 hours, including all study and practice

Chinese Books

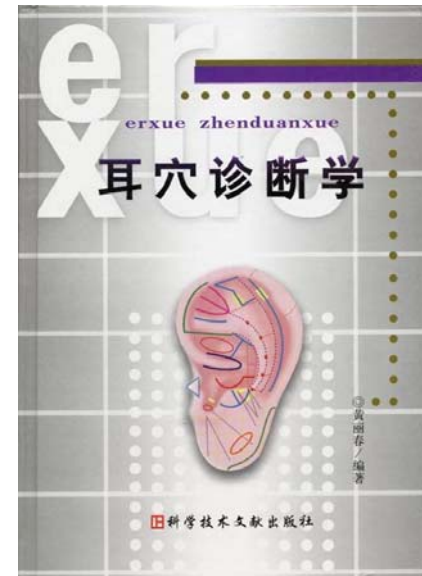

- There are also some Chinese books available

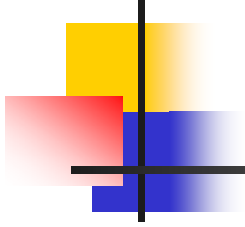

Traditional Chinese

Simplified Chinese
