Auricular diagnosis has 4 methods, inspection, palpation, electrical resistance, and differentiation. Our seminars will demonstrate those to you, and to teach you find 200 diseases and 500 symptoms and each one within 1 minute.

Seminar I, 5/9 -10, 2009

Auricular medicine is a unique art of medicine because of its unique characters such as simplicity and painlessness. In this first seminar, we will give a thorough introduction to auricular medicine. The objective of this seminar is to let the students have a good understanding about the fundamentals about the auricular medicine.

First, we will discuss the differences between auricular medicine and other medicines, such as TCM and French auricular therapy. Then we will introduce the diagnosis and treatment methods of auricular medicine.

Students can learn the general applications of auricular medicine, such as relieving pain, vertigo etc. Students should have a general understanding of auricular medicine once he/she finishes the seminar.

Advantages of auricular diagnosis are safe and painless, easy to learn and to master.

You will learn:
- History and development of auricular medicine:
  1. Ear acupuncture  2. Auricular therapy  3. Auricular medicine
  - Differences between auricular medicine and French auricular therapy.
  - Visual diagnosis of the earlobe
  - Demonstrations of practices and skills.
- 1. Ear records all major problems: past, present, and future.
- 2. Auricular diagnosis
- 3. Auricular treatment
Auricular medicine is the first scientific oriental medicine theory including embryology anatomy, endocrinology, immunology, genetics, pathomorphology, neurology, Meridian Zang-Fu theories, fluidism, etc.

Auricular medicine can help you both diagnose and treat more than 14 medical systems, includes cancers, strokes, diabetes, cardiovascular system........

Auricular medicine has 165 points and 50 areas, zones, lines, groves, axis, and channels, which are more than you need for your practice.

Auricular diagnosis and treatment can save time. While hospital emergency room takes 5 hours for diagnosis and treatment, auricular diagnosis and treatment takes about 10 minutes only.

Seminar V: Auricular Diagnosis, 6/6 - 7, 2009

Seminar V and Seminar VI cover Auricular Diagnosis, including visual diagnosis, palpation diagnosis, electrical detection, and differentiation. In this seminar, we will introduce the auricular visual and palpation diagnosis, which is the oldest and most fundamental method of auricular diagnosis.

When there is any pathological change in the human body, there will be some changes on the corresponding auricular points too, such as color, shape. These changes can be used to diagnose diseases.

Auricular visual and palpation diagnosis is a method to diagnose the diseases simply based on these changes. By inspecting the color and shape changes on the auricle and feeling the internal changes on the auricle (especially the cartilage changes), one can decide the possible diseases or pathological changes in the human body.

You will learn:

- What is auricular diagnosis? Why is auricular diagnosis?
- Comprehensive diagnosis: 14 medical systems.
- Visual diagnosis: more than 100 symptoms and diseases.
- Special features of auricular visual and palpation diagnosis
- Classifications of auricular visual and palpation diagnosis

A New Era of Medicine and Healing

Features of Auricular Diagnosis

1. Ear records the patient’s major health problems.

2. Ear diagnosis reveals medical problems of the past, present, and predicts the future.

3. More than 200 diseases and symptoms can be diagnosed.

4. Auricular diagnosis is based upon embryology, anatomy, genetics, immunology, autonomic nerves, sympathetic and peripheral nerve systems, pathomorphology, fluidism, etc.

5. Ear diagnosis is based upon points, areas, zones, lines, grooves and channels.

6. Ear diagnosis conducts not only through point detection, but also through a method of detection of the whole system called linear mobile touching method.

7. Ear diagnosis is based on anterior and posterior diagnosis and treatment.

9. Auricular medicine can diagnose patient’s medical problems without any patient’s medical complaints, medical records, and medical instruments.

Click www.earmedicine.us Auricular Medicine Institute Call 407 830-0068
Features of Auricular Treatment

1. Ear records the patient’s major health problems.

2. Auricular medicine uses auricular seed method, and auricular treatment has long lasting effects.

3. Auricular medicine treats over 200 diseases and symptoms.

4. Auricular medicine is an independent profession without incorporation of any other therapy.

5. Auricular medicine treats physical and functional problems, emotional, mental, and other sundry problems.

6. Auricular medicine treats each patient as a “Whole Body”, from anterior to posterior, top to bottom, and all parts of the body.

7. Auricular medicine has more than 165 formulae and prescriptions which cover a wide range of medical problems.

8. Auricular medicine is an art of healing: no drugs, no needles, no herbs, no vitamins, and no costly medical instruments.

9. Auricular treatment is fast, instantaneous, effective, and painless.

10. Auricular treatment treats patient’s symptoms as well as causes

11. Auricular treatment requires less visits, but attains long lasting results.

Unique Practice: diagnosis and treatment are practiced through the ears at the same time. Present both merits of Eastern and Western Medicine.
World-Renowned Doctors in Auricular Medicine

**Dr. Lichun Huang** is recognized as the world's leading expert in the field of Auricular Medicine. She has received numerous awards, including the Recognition of Mastery and Lifetime Achievement Award at the World International Symposium on Auricular Therapy and Auricular Medicine. She was also recognized by the president of Italy for treatments she gave to him during his visit to China. Additionally, she received the Friendship and Struggle Award from Cuba’s president for leading a delegation of Chinese acupuncturists in teaching auricular medicine to Cuban doctors.

Dr. Huang worked for over 35 years in a Beijing’s premier hospital, the 301 Military Hospital, prior to coming to the United States. She was the Chief of the Acupuncture Department for more than ten years in that hospital.

Dr. Huang is now the president of Auricular Medicine International Research & Training Center (AMIRTC), founded to train and certify health care professionals in various levels of proficiency in Auricular Medicine, and to advance research in the growing field. Dr. Lichun Huang, together with Dr. William Huang, are now training and teaching doctors throughout the United States, Canada, and in other parts of the world.

**Dr. William S. Huang** is a licensed O.M.D. by the Republic of China, a licensed acupuncturist by the State of Florida, and a certified acupuncturist and herb physician by the National Commission for the Certification of Acupuncturists (NCCA). He has practiced alternative medicine in the United States for more than 30 years, and is one of the pioneers to introduce the Traditional Chinese Medicine (TCM) to the USA.

With more than fifteen years experience in auricular medicine, he has become one of the leading auricular medicine specialists in the world. Dr. Huang currently dedicates himself to the introduction of auricular medicine to western world.

Dr. Huang is a vice-president of the AMIRTC. Together with Dr. Lichung Huang, he is working to train doctors and other medical practitioners around the world.

Dr. Huang is a former president of the Florida Acupuncture Association (1992-1997) and a former president of the TCM Oi Gong Music Foundation (1995-1997). He believes that people can have a better life through TCM and has a passion to help people regain and maintain wellness.
Auricular Medicine Institute provides three levels of programs in the basic courses:

1. **Auricular Therapist**: 50 hours, study and practice.
2. **Practitioner of Auricular Medicine**: 100 hours, study and practice.
3. **Master of Auricular Medicine**: 200 hours, study and practice.

**BEST COURSE FOR LICENSE RENEWAL**

* **NCCAOM CEU Course # ACHB 559-00X** *

Date: May 9, 10 & June 6, 7, 2009

Tuition/each seminar (including a book of $60 value): $450.00

Pre-registration (10 days before seminar):
- Professional: $350.00; Student (present ID at seminar): $200.00
